## Profile

### Full Stack Developer | Passionate Coder | Tech Enthusiast

Versatile and detail-oriented Full Stack Developer with a solid foundation in both front-end and back-end development. Experienced in building responsive, user-focused web applications using modern technologies like React, Node.js, Express, MongoDB, and SQL. Passionate about clean code, performance optimization, and scalable architecture. Adept at working in fast-paced, collaborative environments, delivering high-quality solutions from concept to deployment. Strong understanding of RESTful APIs, version control (Git), and agile development practices. Eager to contribute technical expertise and creative problem-solving skills to innovative teams.

## Projects

### Resume Builder API

Tech Stack: Node.js, Express.js, MongoDB, React, Tailwind CSS, JWT, Vercel

[Live Link](#)

- Developed a RESTful API to manage resume data, supporting CRUD operations for dynamic sections.
- Enabled real-time resume preview and updates using React with live state sync.
- Deployed on Vercel with environment-based configurations and CI/CD integration.
- Applied Tailwind CSS for consistent, responsive UI across devices.

### SocialMatrix– Social Media Analytics Dashboard

Technologies Used: React, Node.js, Github, Tailwind css, Type Script, CSS, Vercel

[Live Link](#)

- Developed a responsive dashboard for tracking social media metrics and performance.
- Implemented user authentication and role-based access control for secure usage.
- Integrated real-time data fetching and visualization for user engagement insights.
- Designed a clean, modern UI with SCSS for styling and Svelte for reactivity.
- Deployed on Vercel for seamless hosting and continuous integration.

### MovieVerse – Full-Stack Movie Discovery Web App

Technologies used: React.js, Tailwind CSS, TypeScript, JavaScript, Node.js, Express.js, MongoDB, ESLint, Vercel, GitHub.

[Live Link](#)

- Built a full-stack movie discovery platform with search, detailed info, and user reviews
- Developed a responsive, modern UI with Tailwind and React for smooth UX across devices
- Implemented client-side form validation and error handling to enhance user experience and data integrity
- RESTful APIs integrated for seamless data exchange between front-end and back-end.

- Deployed on Vercel for live access with continuous integration and fast global delivery
